ILLEGIB Approved For Release 2004/04/15 : CIA-RDP82-00457R009700020008-9 c. All data of attached plant layout agrees with a previously transmitted sketch but the attached Annex contains new information on some additional small buildings. It can be assumed that the plant layout, entered on sketch, is correct. Almost the remaining plant dimensions were reported approximately correct information on the plant size. the refore 25X1 approximately correct that about 1,500 laborers worked in each of the three shifts. The production of preheaters for aircraft engines is correct. 25X1 1 Annex: Red Star Metallurgical Plant in Cherepovets
